El Betash, Alexandria | 01285029334 | hassanhameed153@gmail.com

Skills

- **Programming & Development:** Python, Java, JavaScript, PHP
- **Web Development:** HTML, CSS, JavaScript (Front-end & Back-end)
- **Database Management:** MySQL, Oracle
- **Software Projects:** Command-line applications, desktop apps (JavaFX), web apps (PHP/MySQL), and interactive Python games
- **Computer Skills:** ICDL certified
- **Languages:** English (B2 Level)
- **Soft Skills:** Teamwork, collaboration, problem-solving

- **Developer tools:** Github , Docker , Linux

Education

Alexandria University – Faculty of Science

Department of Computer Science & Mathematics

Undergraduate, Second Year

Projects

Rock–Paper–Scissors Game (Python):

Developed an interactive command-line game using Python, applying loops, conditionals, and randomization. Enhanced functionality with score tracking, replay options, and input validation to improve user experience.

Car Sales Website:

Developed a responsive website using CSS and JavaScript to showcase and sell cars online.

Student Information System (PHP + MySQL):

Built a PHP-based web application with MySQL database integration to manage student IDs, courses, and grades.

College System Management (Java):

Designed a Java application to organize courses, lectures, and teacher assignments.

Number Guessing Game (Python):

Developed a Python-based command-line game using random number generation, loops, and conditionals, enhanced with difficulty levels, hints, scoring, and replay options. Implemented robust input validation and error handling to ensure smooth and engaging gameplay.

Student Management System (JavaFX + Oracle):

Created a desktop application linked to Oracle database for managing student records and academic information.
